206. *Mr. Laughren*—Enquiry of the Ministry—Will the Minister of Natural Resources advise the House: (1) Given the concern that exists among local forest users operating within the Port Arthur Crown Management Unit as to the manner in which his Ministry's policies will affect them, how does he propose to address this concern now and in the future; (2) In particular, how do the Thunder Bay and Nipigon District Land Use Planning Processes address the concerns of local users of the forest resource. Why are local users

being denied access to forest resources in favour of large companies. Will the Minister consider establishing a principle of right of first refusal for local users on Crown Management Units; (3) If, as a result of the Forest Resources Inventory (F.R.I.), the forest base is found to be insufficient to support current use, how, and to whom, will resources be allocated; (4) If the F.R.I. indicates resources in excess of current demand, what will be the priority of allocation, for example, between local and non-local, current and potential users; (5) What will be the format of future public involvement and debate on the Ministry's resource allocation and resource policy decisions regarding the Port Arthur Crown Management Unit; (6) What will be the nature of the appeal process for the Ministry's allocation and policy decisions affecting citizens and/or resources within the Port Arthur Crown Management Unit; (7) How are the Ministry's policies going to protect local users, citizens and their communities within the Port Arthur Crown Management Unit from economic decline and the vagaries of the "boom-and-bust" cycle so prevalent across Northern Ontario; (8) What is the history of resource allocation in the Port Arthur Crown Management Unit. Why was it established. Who were its original users. When and why was priority given to large woodlands operators over smaller year-round, seasonal or part-time cutters in the area. What public input was solicited before the Ministry's policy of attrition was established; (9) Why are large companies given long-term contracts, whereas local users are given only short-term (yearly) permits, thus denying them the ability to plan for long-term operation and investment; (10) Given recent findings, for example in the 1982 Anderson/Bonsor Report, that small, local operators are not only more efficient but less ecologically-damaging than large companies, why is it that the latter have exclusive access to large tracts of land and timber, while small operators do not; and (11) Why are F.M.A.s being signed with large companies when demand by local independents has not been similarly identified and planned for. *June 3rd, 1982.*

Second Reading Bill 126, An Act to amend the Liquor Control Act. Mr. Samis. To be debated Thursday, June 24th, 1982.

Ballot Item No. 21

Mr. McKessock—Resolution—That, in the belief that every child should have the opportunity of learning the Judaeo-Christian beliefs on which this country was founded and recognizing that the religious convictions of those other than Christians are fully protected under the Act and regulations, section 50 of the Education Act and regulations pertaining to religious education should be strictly adhered to in the province, particularly recognizing that only 30 per cent of Canadians presently attend church regularly so that it is doubly important that students be exposed to Biblical truths and the reasons for our moral standards, and to this end, that section 28, subsection 15 of O. Reg. 262, R.R.O. 1980, which allows the Ministry of Education to grant exemptions to Boards, be repealed as it is in conflict with the Education Act, section 235, subsection 1 (c) which requires a teacher to inculcate by precept and example respect for religion and the principles of Judaeo-Christian morality. To be debated Thursday, June 24th, 1982.

206. *Mr. Laughren*—Enquiry of the Ministry—Will the Minister of Natural Resources advise the House: (1) Given the concern that exists among local forest users operating within the Port Arthur Crown Management Unit as to the manner in which his Ministry's policies will affect them, how does he propose to address this concern now and in the future; (2) In particular, how do the Thunder Bay and Nipigon District Land Use Planning Processes address the concerns of local users of the forest resource. Why are local users

being denied access to forest resources in favour of large companies. Will the Minister consider establishing a principle of right of first refusal for local users on Crown Management Units; (3) If, as a result of the Forest Resources Inventory (F.R.I.), the forest base is found to be insufficient to support current use, how, and to whom, will resources be allocated; (4) If the F.R.I. indicates resources in excess of current demand, what will be the priority of allocation, for example, between local and non-local, current and potential users; (5) What will be the format of future public involvement and debate on the Ministry's resource allocation and resource policy decisions regarding the Port Arthur Crown Management Unit; (6) What will be the nature of the appeal process for the Ministry's allocation and policy decisions affecting citizens and/or resources within the Port Arthur Crown Management Unit; (7) How are the Ministry's policies going to protect local users, citizens and their communities within the Port Arthur Crown Management Unit from economic decline and the vagaries of the "boom-and-bust" cycle so prevalent across Northern Ontario; (8) What is the history of resource allocation in the Port Arthur Crown Management Unit. Why was it established. Who were its original users. When and why was priority given to large woodlands operators over smaller year-round, seasonal or part-time cutters in the area. What public input was solicited before the Ministry's policy of attrition was established; (9) Why are large companies given long-term contracts, whereas local users are given only short-term (yearly) permits, thus denying them the ability to plan for long-term operation and investment; (10) Given recent findings, for example in the 1982 Anderson/Bonsor Report, that small, local operators are not only more efficient but less ecologically-damaging than large companies, why is it that the latter have exclusive access to large tracts of land and timber, while small operators do not; and (11) Why are F.M.A.s being signed with large companies when demand by local independents has not been similarly identified and planned for. *June 3rd, 1982.*

Mr. McKessock—Resolution—That, in the belief that every child should have the opportunity of learning the Judaeo-Christian beliefs on which this country was founded and recognizing that the religious convictions of those other than Christians are fully protected under the Act and regulations, section 50 of the *Education Act* and regulations pertaining to religious education should be strictly adhered to in the province, particularly recognizing that only 30 per cent of Canadians presently attend church regularly so that it is doubly important that students be exposed to Biblical truths and the reasons for our moral standards, and to this end, that section 28, subsection 15 of O. Reg. 262, R.R.O. 1980, which allows the Ministry of Education to grant exemptions to Boards, be repealed as it is in conflict with the *Education Act*, section 235, subsection 1 (c) which requires a teacher to inculcate by precept and example respect for religion and the principles of Judaeo-Christian morality. *To be debated Thursday, June 24th, 1982.*

206. *Mr. Laughren*—Enquiry of the Ministry—Will the Minister of Natural Resources advise the House: (1) Given the concern that exists among local forest users operating within the Port Arthur Crown Management Unit as to the manner in which his Ministry's policies will affect them, how does he propose to address this concern now and in the future; (2) In particular, how do the Thunder Bay and Nipigon District Land Use Planning Processes address the concerns of local users of the forest resource. Why are local users

being denied access to forest resources in favour of large companies. Will the Minister consider establishing a principle of right of first refusal for local users on Crown Management Units; (3) If, as a result of the Forest Resources Inventory (F.R.I.), the forest base is found to be insufficient to support current use, how, and to whom, will resources be allocated; (4) If the F.R.I. indicates resources in excess of current demand, what will be the priority of allocation, for example, between local and non-local, current and potential users; (5) What will be the format of future public involvement and debate on the Ministry's resource allocation and resource policy decisions regarding the Port Arthur Crown Management Unit; (6) What will be the nature of the appeal process for the Ministry's allocation and policy decisions affecting citizens and/or resources within the Port Arthur Crown Management Unit; (7) How are the Ministry's policies going to protect local users, citizens and their communities within the Port Arthur Crown Management Unit from economic decline and the vagaries of the "boom-and-bust" cycle so prevalent across Northern Ontario; (8) What is the history of resource allocation in the Port Arthur Crown Management Unit. Why was it established. Who were its original users. When and why was priority given to large woodlands operators over smaller year-round, seasonal or part-time cutters in the area. What public input was solicited before the Ministry's policy of attrition was established; (9) Why are large companies given long-term contracts, whereas local users are given only short-term (yearly) permits, thus denying them the ability to plan for long-term operation and investment; (10) Given recent findings, for example in the 1982 Anderson/Bonsor Report, that small, local operators are not only more efficient but less ecologically-damaging than large companies, why is it that the latter have exclusive access to large tracts of land and timber, while small operators do not; and (11) Why are F.M.A.s being signed with large companies when demand by local independents has not been similarly identified and planned for. *June 3rd, 1982.*

Second Reading Bill 126, An Act to amend the Liquor Control Act. Mr. Samis. To be debated Thursday, June 24th, 1982.

Ballot Item No. 21

Mr. McKessock—Resolution—That, in the belief that every child should have the opportunity of learning the Judaeo-Christian beliefs on which this country was founded and recognizing that the religious convictions of those other than Christians are fully protected under the Act and regulations, section 50 of the Education Act and regulations pertaining to religious education should be strictly adhered to in the province, particularly recognizing that only 30 per cent of Canadians presently attend church regularly so that it is doubly important that students be exposed to Biblical truths and the reasons for our moral standards, and to this end, that section 28, subsection 15 of O. Reg. 262, R.R.O. 1980, which allows the Ministry of Education to grant exemptions to Boards, be repealed as it is in conflict with the Education Act, section 235, subsection 1 (c) which requires a teacher to inculcate by precept and example respect for religion and the principles of Judaeo-Christian morality. To be debated Thursday, June 24th, 1982.

205. *Mr. Mancini*—Enquiry of the Ministry—Would the Premier provide the following information concerning the Cabinet Office: (1) How many employees were in the Cabinet Office in 1971 (either permanent or contract); (2) How many employees are in the Cabinet Office for the fiscal year 1982-83 (either permanent or contract); and (3) Would the Premier provide a list of the staff positions and salaries and perquisites associated with those positions for the following fiscal years—1979-80, 1980-81 and 1982-83. *June 2nd, 1982.*
206. *Mr. Laughren*—Enquiry of the Ministry—Will the Minister of Natural Resources advise the House: (1) Given the concern that exists among local forest users operating within the Port Arthur Crown Management Unit as to the manner in which his Ministry's policies will affect them, how does he propose to address this concern now and in the future; (2) In particular, how do the Thunder Bay and Nipigon District Land Use Planning Processes address the concerns of local users of the forest resource. Why are local users being denied access to forest resources in favour of large companies. Will the Minister consider establishing a principle of right of first refusal for local users on Crown Management Units; (3) If, as a result of the Forest Resources Inventory (F.R.I.), the forest base is found to be insufficient to support current use, how, and to whom, will resources be allocated; (4) If the F.R.I. indicates resources in excess of current demand, what will be the priority of allocation, for example, between local and non-local, current and potential users; (5) What will be the format of future public involvement and debate on the Ministry's resource allocation and resource policy decisions regarding the Port Arthur Crown Management Unit; (6) What will be the nature of the appeal process for the Ministry's allocation and policy decisions affecting citizens and/or resources within the Port Arthur Crown Management Unit; (7) How are the Ministry's policies going to protect local users, citizens and their communities within the Port Arthur Crown Management Unit from economic decline and the vagaries of the "boom-and-bust" cycle so prevalent across Northern Ontario; (8) What is the history of resource allocation in the Port Arthur Crown Management Unit. Why was it established. Who were its original users. When and why was priority given to large woodlands operators over smaller year-round, seasonal or part-time cutters in the area. What public input was solicited before the Ministry's policy of attrition was established; (9) Why are large companies given long-term contracts, whereas local users are given only short-term (yearly) permits, thus denying them the ability to plan for long-term operation and investment; (10) Given recent findings, for example in the 1982 Anderson/Bonsor Report, that small, local operators are not only more efficient but less ecologically-damaging than large companies, why is it that the latter have exclusive access to large tracts of land and timber, while small operators do not; and (11) Why are F.M.A.s being signed with large companies when demand by local independents has not been similarly identified and planned for. *June 3rd, 1982. Second Reading Bill 126, An Act to amend the Liquor Control Act. Mr. Samis. To be debated Thursday, June 24th, 1982.

Ballot Item No. 21

Mr. McKessock—Resolution—That, in the belief that every child should have the opportunity of learning the Judaeo-Christian beliefs on which this country was founded and recognizing that the religious convictions of those other than Christians are fully protected under the Act and regulations, section 50 of the Education Act and regulations pertaining to religious education should be strictly adhered to in the province, particularly recognizing that only 30 per cent of Canadians presently attend church regularly so that it is doubly important that students be exposed to Biblical truths and the reasons for our moral standards, and to this end, that section 28, subsection 15 of O. Reg. 262, R.R.O. 1980, which allows the Ministry of Education to grant exemptions to Boards, be repealed as it is in conflict with the Education Act, section 235, subsection 1 (c) which requires a teacher to inculcate by precept and example respect for religion and the principles of Judaeo-Christian morality. To be debated Thursday, June 24th, 1982.

NOTICES

PRIVATE MEMBERS' MOTIONS

1. *Ms. Bryden*—Resolution—That in the opinion of this House the government should establish an all-party committee to study ways of dealing with violence in the family and in particular the following matters: (1) preventative educational programs; (2) the establishment and funding of transition houses; (3) the adequacy of health, welfare and counselling services available to the victims of family violence; and (4) the need for revised legislation and changes in police and court procedures to protect battered spouses.
2. *Debated April 8th, 1982.*
3. *Mr. Philip*—Resolution—That, in the opinion of this House, the Government should ensure that the following principles are adopted in all rental housing projects which the Ontario Housing Corporation owns or administers: 1. rents shall be geared to net, rather than gross family income, taking into account income tax and other mandatory payroll deductions as well as the cost of basic food and clothing in light of the size of the household; 2. rents shall be adjusted for the duration of any lockout or legal strike to reflect any change in actual net family income, and no recovery of the amounts by which rents are thus reduced shall be made after the labour dispute is settled.
4. *Ms. Bryden*—Resolution—That in view of the necessity of extending to the municipal field the principles of disclosure and limitations on contributions and expenditures contained in the provincial *Election Finances Reform Act, 1975*, this House directs the government to bring in legislation applicable to candidates covered by the *Municipal Elections Act* embodying the general principles of the provincial Act but also including specific limits on all expenditures by a candidate related to an election.
5. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) the formation of a separate branch or division with registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) application to all industries and all franchises within each industry; (4) the franchisee to have a four-day cooling off period; (5) prohibition against dealing in franchises except as provided; (6) the administrators of the Act to have the authority to discourage; (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; (e) competitive and discriminatory practices by franchisors.
6. *Debated April 15th, 1982.*
7. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Revenue should direct, immediately, the Assessment Branch of his Ministry

to locate, through a questionnaire to each householder and home owner, all housing which has urea formaldehyde foam insulation (UFFI) and, further, take immediate steps to reduce the assessed value of such houses proportionate to the reduction of their market value due to the UFFI as the Minister is required to do under the Assessment Act.

8. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Municipal Affairs and Housing should take action immediately to amend the *Municipal Act* so that municipalities would license all contractors engaged in the removal of UFFI. Further, the Minister should develop licensing guidelines and urge all municipalities to use them.
9. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Health should immediately establish a medical task force to examine, analyze, and document the health of those people reporting serious health problems which appear to be caused or triggered by UFFI. The study should include the long-term effects of exposure to UFFI.
10. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Consumer and Commercial Relations should amend the Ontario Building Code Regulation 925/75 to provide that a municipal building permit is required for the removal of UFFI insulation from all buildings. The amendment should provide for adequate inspecting and testing for formaldehyde gas after removal of the UFFI and prior to retrofitting. Further, guidelines for removal of the UFFI, inspecting and testing of the buildings and subsequent certification, should be prepared and forwarded to all municipalities.

13. *Debated April 22nd, 1982.*
14. *Mr. Swart*—Resolution—That, in the opinion of this House, the government should amend the *Retail Sales Tax Act* and regulations to eliminate the practice of repeated taxation of a single item by providing that retail sales tax will not be payable upon the resale of a used item.
15. *Mr. Riddell*—Resolution—That in the opinion of this House, and as a result of the failure of the Provincial Agricultural Code of Practice to protect farmers carrying on normal farming practices from harassment and restrictions, and as a result of the failure of the Food Land Guidelines to preserve agricultural land, the Government should introduce an Agricultural Development and Protection Act to serve as a Farmers' Bill of Rights, which would: (a) Conserve, protect and encourage the development and improvement of agricultural land for the production of food and other agricultural products including alternate energy production through the establishment of Agricultural Reserves; (b) Protect farmers from harassment and complaints from no-farm encroachment into farming areas; and (c) Establish an Agricultural

Approvals Board to investigate complaints and make recommendations to the Minister of Agriculture and Food.

M. Roy—Résolution—Etant donné que l'article 43 de la Loi constitutionnelle de 1982 prévoit que certaines modifications relatives à la Constitution du Canada, et qui ne visent que l'Ontario, peuvent être apportées par proclamation par le Gouverneur général sous le grand sceau du Canada, après autorisation par résolution du Sénat, de la Chambre des communes et de l'Assemblée législative de l'Ontario, la Chambre autorise par la présente la modification de la Charte canadienne des droits et libertés par voie de proclamation du Gouverneur général sous le grand sceau du Canada, de la façon ci-après:

Article 17
modifié

1. L'article 17 de la Charte canadienne des droits et libertés est modifié par l'adjonction du paragraphe suivant:

Titre

4. Titre abrégé des modifications contenues dans la présente annexe: *Loi modifiant la loi constitutionnelle (Ontario) de 1982.*

21. *Mr. Breithaupt*—Resolution—That, in the opinion of this House, upon the issuance of a Writ of Election, and until a new Government is sworn in by the Lieutenant Governor, no report, position paper, memorandum or any other document paid for from public funds or prepared by any person paid from public funds may be removed from government files, disposed of or destroyed.

22. *Debated May 11th, 1982.*

23. *Mr. McKessock*—Resolution—That, in the belief that every child should have the opportunity of learning the Judaeo-Christian beliefs on which this coun-

try was founded and recognizing that the religious convictions of those other than Christians are fully protected under the Act and regulations, section 50 of the *Education Act* and regulations pertaining to religious education should be strictly adhered to in the province, particularly recognizing that only 30 percent of Canadians presently attend church regularly so that it is doubly important that students be exposed to Biblical truths and the reasons for our moral standards, and to this end, that subsection 15 of Regulation 28, which allows the Ministry of Education to grant exemptions to Boards, be repealed as it is in conflict with the *Education Act*, section 235, subsection 1 (c) which requires a teacher to inculcate by precept and example respect for religion and the principles of Judaeo-Christian morality.

30. *Mr. Shymko*—Resolution—That, in the opinion of this House television coverage by accredited members of the Press Gallery and recognized national, local and cable television companies be permitted in the Chamber at all times during the sittings of the House.
31. *Mrs. Scrivener*—Resolution—That this House recommends that the Government of Ontario take steps to ensure that persons who are substantially exonerated of charges laid against them under the Criminal Code, whether upon a preliminary inquiry as was the case with Susan Nelles, or after a trial, be compensated for their legal expenses.
32. *Mr. Johnston* (Scarborough West)—Resolution—That, in the opinion of this House, the Government should take immediate steps to prohibit the use by employers of polygraph tests which are in any way related to terms of employment or applications for employment, including: (a) screening job applicants; (b) screening employees for promotion; (c) determining the honesty of employees or applicants; and (d) obtaining personal information from employees or applicants.
33. *Ms. Bryden*—Resolution—That in the light of the Nelles case and in light of the other reported cases where persons were incarcerated for long periods and subsequently found not guilty or have had the charges against them withdrawn or proceedings stayed or a conviction set aside because of new evidence, this House urges the Government to develop a system of compensa-

tion for persons who suffer substantial financial losses through injustices arising from the workings of the judicial system; and further, that, the Government refer the question to the Ontario Law Reform Commission for study and development of a draft bill to be presented to the Legislature for the next session.

Second Reading Bill 126, An Act to amend the Liquor Control Act. Mr. Samis. To be debated Thursday, June 24th, 1982.

Ballot Item No. 21

Mr. McKessock—Resolution—That, in the belief that every child should have the opportunity of learning the Judaeo-Christian beliefs on which this country was founded and recognizing that the religious convictions of those other than Christians are fully protected under the Act and regulations, section 50 of the Education Act and regulations pertaining to religious education should be strictly adhered to in the province, particularly recognizing that only 30 per cent of Canadians presently attend church regularly so that it is doubly important that students be exposed to Biblical truths and the reasons for our moral standards, and to this end, that section 28, subsection 15 of O. Reg. 262, R.R.O. 1980, which allows the Ministry of Education to grant exemptions to Boards, be repealed as it is in conflict with the Education Act, section 235, subsection 1 (c) which requires a teacher to inculcate by precept and example respect for religion and the principles of Judaeo-Christian morality. To be debated Thursday, June 24th, 1982.

PRIVATE MEMBER'S MOTION TABLED ON
JUNE 24th, 1982

*(Private Members' Motions other than those directly related to
Government Orders or Motions of Non-Confidence
will be published on the Notice Paper each Thursday.)*

34. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government of Ontario should establish a program to provide compensation to individuals who have been charged with an offence under the laws of Canada or Ontario and who are subsequently discharged or found not guilty whether at a preliminary hearing, at trial or on appeal and who, as a result of the charge and related legal proceedings, have incurred substantial legal costs or suffered substantial loss of reputation or economic losses. The program should be administered by the Criminal Injuries Compensation Board or a similar Board. The administering Board should be given the discretion to decide whether any compensation should be awarded, having regard to all of the circumstances. And, that, this House also recommends that the Government of Ontario should request that the Government of Canada amend the laws of Canada to provide for contributions by the Government of Canada to any fund established for the purposes of the program and provide statutory authority under the *Criminal Code* (Canada) to permit a court at a preliminary hearing, at trial or on appeal, to recommend whether or not the case is an appropriate case for referral to the administering Board and the Government of Ontario should introduce similar amendments to the laws of Ontario.

206. *Mr. Laughren*—Enquiry of the Ministry—Will the Minister of Natural Resources advise the House: (1) Given the concern that exists among local forest users operating within the Port Arthur Crown Management Unit as to the manner in which his Ministry's policies will affect them, how does he propose to address this concern now and in the future; (2) In particular, how do the Thunder Bay and Nipigon District Land Use Planning Processes address the concerns of local users of the forest resource. Why are local users being denied access to forest resources in favour of large companies. Will the Minister consider establishing a principle of right of first refusal for local users on Crown Management Units; (3) If, as a result of the Forest Resources Inventory (F.R.I.), the forest base is found to be insufficient to support current use, how, and to whom, will resources be allocated; (4) If the F.R.I. indicates resources in excess of current demand, what will be the priority of

allocation, for example, between local and non-local, current and potential users; (5) What will be the format of future public involvement and debate on the Ministry's resource allocation and resource policy decisions regarding the Port Arthur Crown Management Unit; (6) What will be the nature of the appeal process for the Ministry's allocation and policy decisions affecting citizens and/or resources within the Port Arthur Crown Management Unit; (7) How are the Ministry's policies going to protect local users, citizens and their communities within the Port Arthur Crown Management Unit from economic decline and the vagaries of the "boom-and-bust" cycle so prevalent across Northern Ontario; (8) What is the history of resource allocation in the Port Arthur Crown Management Unit. Why was it established. Who were its original users. When and why was priority given to large woodlands operators over smaller year-round, seasonal or part-time cutters in the area. What public input was solicited before the Ministry's policy of attrition was established; (9) Why are large companies given long-term contracts, whereas local users are given only short-term (yearly) permits, thus denying them the ability to plan for long-term operation and investment; (10) Given recent findings, for example in the 1982 Anderson/Bonsor Report, that small, local operators are not only more efficient but less ecologically-damaging than large companies, why is it that the latter have exclusive access to large tracts of land and timber, while small operators do not; and (11) Why are F.M.A.s being signed with large companies when demand by local independents has not been similarly identified and planned for. *June 3rd, 1982. Why was it established. Who were its original users. When and why was priority given to large woodlands operators over smaller year-round, seasonal or part-time cutters in the area. What public input was solicited before the Ministry's policy of attrition was established; (9) Why are large companies given long-term contracts, whereas local users are given only short-term (yearly) permits, thus denying them the ability to plan for long-term operation and investment; (10) Given recent findings, for example in the 1982 Anderson/Bonsor Report, that small, local operators are not only more efficient but less ecologically-damaging than large companies, why is it that the latter have exclusive access to large tracts of land and timber, while small operators do not; and (11) Why are F.M.A.s being signed with large companies when demand by local independents has not been similarly identified and planned for. *June 3rd, 1982. Why was it established. Who were its original users. When and why was priority given to large woodlands operators over smaller year-round, seasonal or part-time cutters in the area. What public input was solicited before the Ministry's policy of attrition was established; (9) Why are large companies given long-term contracts, whereas local users are given only short-term (yearly) permits, thus denying them the ability to plan for long-term operation and investment; (10) Given recent findings, for example in the 1982 Anderson/Bonsor Report, that small, local operators are not only more efficient but less ecologically-damaging than large companies, why is it that the latter have exclusive access to large tracts of land and timber, while small operators do not; and (11) Why are F.M.A.s being signed with large companies when demand by local independents has not been similarly identified and planned for. *June 3rd, 1982. Will the Minister consider establishing a principle of right of first refusal for local users on Crown Management Units; (3) If, as a result of the Forest Resources Inventory (F.R.I.), the forest base is found to be insufficient to support current use, how, and to whom, will resources be allocated; (4) If the F.R.I. indicates resources in excess of current demand, what will be the priority of allocation, for example, between local and non-local, current and potential

users; (5) What will be the format of future public involvement and debate on the Ministry's resource allocation and resource policy decisions regarding the Port Arthur Crown Management Unit; (6) What will be the nature of the appeal process for the Ministry's allocation and policy decisions affecting citizens and/or resources within the Port Arthur Crown Management Unit; (7) How are the Ministry's policies going to protect local users, citizens and their communities within the Port Arthur Crown Management Unit from economic decline and the vagaries of the "boom-and-bust" cycle so prevalent across Northern Ontario; (8) What is the history of resource allocation in the Port Arthur Crown Management Unit. Why was it established. Who were its original users. When and why was priority given to large woodlands operators over smaller year-round, seasonal or part-time cutters in the area. What public input was solicited before the Ministry's policy of attrition was established; (9) Why are large companies given long-term contracts, whereas local users are given only short-term (yearly) permits, thus denying them the ability to plan for long-term operation and investment; (10) Given recent findings, for example in the 1982 Anderson/Bonsor Report, that small, local operators are not only more efficient but less ecologically-damaging than large companies, why is it that the latter have exclusive access to large tracts of land and timber, while small operators do not; and (11) Why are F.M.A.s being signed with large companies when demand by local independents has not been similarly identified and planned for. *June 3rd, 1982. NOTICES

PRIVATE MEMBERS' MOTIONS

1. *Ms. Bryden*—Resolution—That in the opinion of this House the government should establish an all-party committee to study ways of dealing with violence in the family and in particular the following matters: (1) preventative educational programs; (2) the establishment and funding of transition houses; (3) the adequacy of health, welfare and counselling services available to the victims of family violence; and (4) the need for revised legislation and changes in police and court procedures to protect battered spouses.
3. *Mr. Philip*—Resolution—That, in the opinion of this House, the Government should ensure that the following principles are adopted in all rental housing projects which the Ontario Housing Corporation owns or administers: 1. rents shall be geared to net, rather than gross family income, taking into account income tax and other mandatory payroll deductions as well as the cost of basic food and clothing in light of the size of the household; 2. rents shall be adjusted for the duration of any lockout or legal strike to reflect any change in actual net family income, and no recovery of the amounts by which rents are thus reduced shall be made after the labour dispute is settled.
4. *Ms. Bryden*—Resolution—That in view of the necessity of extending to the municipal field the principles of disclosure and limitations on contributions and expenditures contained in the provincial *Election Finances Reform Act, 1975*, this House directs the government to bring in legislation applicable to candidates covered by the *Municipal Elections Act* embodying the general principles of the provincial Act but also including specific limits on all expenditures by a candidate related to an election.
5. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) the formation of a separate branch or division with registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) application to all industries and all franchises within each industry; (4) the franchisee to have a four-day cooling off period; (5) prohibition against dealing in franchises except as provided; (6) the administrators of the Act to have the authority to discourage; (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; (e) competitive and discriminatory practices by franchisors.
7. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Revenue should direct, immediately, the Assessment Branch of his Ministry to locate, through a questionnaire to each householder and home owner, all housing which has urea formaldehyde foam insulation (UFFI) and, further, take immediate steps to reduce the assessed value of such houses proportionate to the reduction of their market value due to the UFFI as the Minister is required to do under the Assessment Act.

8. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Municipal Affairs and Housing should take action immediately to amend the *Municipal Act* so that municipalities would license all contractors engaged in the removal of UFFI. Further, the Minister should develop licensing guidelines and urge all municipalities to use them.
9. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Health should immediately establish a medical task force to examine, analyze, and document the health of those people reporting serious health problems which appear to be caused or triggered by UFFI. The study should include the long-term effects of exposure to UFFI.
10. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Consumer and Commercial Relations should amend the Ontario Building Code Regulation 925/75 to provide that a municipal building permit is required for the removal of UFFI insulation from all buildings. The amendment should provide for adequate inspecting and testing for formaldehyde gas after removal of the UFFI and prior to retrofitting. Further, guidelines for removal of the UFFI, inspecting and testing of the buildings and subsequent certification, should be prepared and forwarded to all municipalities.
14. *Mr. Swart*—Resolution—That, in the opinion of this House, the government should amend the *Retail Sales Tax Act* and regulations to eliminate the practice of repeated taxation of a single item by providing that retail sales tax will not be payable upon the resale of a used item.
15. *Mr. Riddell*—Resolution—That in the opinion of this House, and as a result of the failure of the Provincial Agricultural Code of Practice to protect farmers carrying on normal farming practices from harassment and restrictions, and as a result of the failure of the Food Land Guidelines to preserve agricultural land, the Government should introduce an Agricultural Development and Protection Act to serve as a Farmers' Bill of Rights, which would:
(a) Conserve, protect and encourage the development and improvement of agricultural land for the production of food and other agricultural products including alternate energy production through the establishment of Agricultural Reserves; (b) Protect farmers from harassment and complaints from no-farm encroachment into farming areas; and (c) Establish an Agricultural Approvals Board to investigate complaints and make recommendations to the Minister of Agriculture and Food.
20. *Mr. Roy*—Resolution—That, as section 43 of the Constitution Act, 1982 provides that certain amendments under the Constitution of Canada that apply only to Ontario may be made by proclamation issued by the Governor General under the Great Seal of Canada as authorized by resolutions of the Senate, the House of Commons and the Legislative Assembly of Ontario, this House hereby authorizes that the Canadian Charter of Rights be amended by proclamation of the Governor General under the Great Seal of Canada in the manner set out as follows:

Titre

4. Titre abrégé des modifications contenues dans la présente annexe: *Loi modifiant la loi constitutionnelle (Ontario) de 1982.*

21. *Mr. Breithaupt*—Resolution—That, in the opinion of this House, upon the issuance of a Writ of Election, and until a new Government is sworn in by the Lieutenant Governor, no report, position paper, memorandum or any other document paid for from public funds or prepared by any person paid from public funds may be removed from government files, disposed of or destroyed.
29. *Mr. McNeil*—Resolution—That, in view of the success to date of agricultural trade missions in promoting the sale of our farm produce, this House strongly supports and encourages the initiatives of the Ontario Ministry of Agriculture and Food for the expansion of export trade.
30. *Mr. Shymko*—Resolution—That, in the opinion of this House television coverage by accredited members of the Press Gallery and recognized national, local and cable television companies be permitted in the Chamber at all times during the sittings of the House.
31. *Mrs. Scrivener*—Resolution—That this House recommends that the Government of Ontario take steps to ensure that persons who are substantially exonerated of charges laid against them under the Criminal Code, whether upon a preliminary inquiry as was the case with Susan Nelles, or after a trial, be compensated for their legal expenses.
32. *Mr. Johnston* (Scarborough West)—Resolution—That, in the opinion of this House, the Government should take immediate steps to prohibit the use by employers of polygraph tests which are in any way related to terms of employment or applications for employment, including: (a) screening job applicants; (b) screening employees for promotion; (c) determining the honesty of employees or applicants; and (d) obtaining personal information from employees or applicants.
33. *Ms. Bryden*—Resolution—That in the light of the Nelles case and in light of the other reported cases where persons were incarcerated for long periods and

subsequently found not guilty or have had the charges against them withdrawn or proceedings stayed or a conviction set aside because of new evidence, this House urges the Government to develop a system of compensation for persons who suffer substantial financial losses through injustices arising from the workings of the judicial system; and further, that, the Government refer the question to the Ontario Law Reform Commission for study and development of a draft bill to be presented to the Legislature for the next session.

34. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government of Ontario should establish a program to provide compensation to individuals who have been charged with an offence under the laws of Canada or Ontario and who are subsequently discharged or found not guilty whether at a preliminary hearing, at trial or on appeal and who, as a result of the charge and related legal proceedings, have incurred substantial legal costs or suffered substantial loss of reputation or economic losses. The program should be administered by the Criminal Injuries Compensation Board or a similar Board. The administering Board should be given the discretion to decide whether any compensation should be awarded, having regard to all of the circumstances. And, that, this House also recommends that the Government of Ontario should request that the Government of Canada amend the laws of Canada to provide for contributions by the Government of Canada to any fund established for the purposes of the program and provide statutory authority under the *Criminal Code* (Canada) to permit a court at a preliminary hearing, at trial or on appeal, to recommend whether or not the case is an appropriate case for referral to the administering Board and the Government of Ontario should introduce similar amendments to the laws of Ontario.
 35. *Mr. Di Santo*—Resolution—That, in the opinion of this House, the Government should amend the *Retail Sales Tax Act* so as to exempt purchasers from retail sales taxes on goods sold by manufacturers whose annual sales do not exceed \$50,000. This would correspond to similar provisions contained in the regulations made under the *Excise Tax Act* (Canada).
 36. *Mr. Kells*—Resolution—That, this House, recognizing that airborne pollution and acidic precipitation are serious problems in Ontario, recommends that the Government of Ontario seek to increase public awareness of this subject in general and its effects by: (1) including the subject of acid rain in curriculum guidelines for Science and Environmental Science at the Intermediate and Senior levels; and (2) ensuring that resource materials, textbooks and other teaching aids suitable for this purpose are available to Ontario schools.
 37. *Mr. Watson*—Resolution—That in view of the continuing importance of agricultural growth to Ontario, as well as the importance of new scientific and technical developments in the field of agriculture, this House advocates the creation of a Select Committee or a sub-committee of the Standing Committee on Resources Development to examine the levels of both private and public sector funding for agricultural research and development in the Province and to report back to this House or the Standing Committee as is appropriate.

NOTICES

PRIVATE MEMBERS' MOTIONS

1. *Ms. Bryden*—Resolution—That in the opinion of this House the government should establish an all-party committee to study ways of dealing with violence in the family and in particular the following matters: (1) preventative educational programs; (2) the establishment and funding of transition houses; (3) the adequacy of health, welfare and counselling services available to the victims of family violence; and (4) the need for revised legislation and changes in police and court procedures to protect battered spouses.
3. *Mr. Philip*—Resolution—That, in the opinion of this House, the Government should ensure that the following principles are adopted in all rental housing projects which the Ontario Housing Corporation owns or administers: 1. rents shall be geared to net, rather than gross family income, taking into account income tax and other mandatory payroll deductions as well as the cost of basic food and clothing in light of the size of the household; 2. rents shall be adjusted for the duration of any lockout or legal strike to reflect any change in actual net family income, and no recovery of the amounts by which rents are thus reduced shall be made after the labour dispute is settled.
4. *Ms. Bryden*—Resolution—That in view of the necessity of extending to the municipal field the principles of disclosure and limitations on contributions and expenditures contained in the provincial *Election Finances Reform Act, 1975*, this House directs the government to bring in legislation applicable to candidates covered by the *Municipal Elections Act* embodying the general principles of the provincial Act but also including specific limits on all expenditures by a candidate related to an election.
5. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) the formation of a separate branch or division with registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) application to all industries and all franchises within each industry; (4) the franchisee to have a four-day cooling off period; (5) prohibition against dealing in franchises except as provided; (6) the administrators of the Act to have the authority to discourage; (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; (e) competitive and discriminatory practices by franchisors.
7. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Revenue should direct, immediately, the Assessment Branch of his Ministry to locate, through a questionnaire to each householder and home owner, all housing which has urea formaldehyde foam insulation (UFFI) and, further, take immediate steps to reduce the assessed value of such houses proportionate to the reduction of their market value due to the UFFI as the Minister is required to do under the Assessment Act.

8. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Municipal Affairs and Housing should take action immediately to amend the *Municipal Act* so that municipalities would license all contractors engaged in the removal of UFFI. Further, the Minister should develop licensing guidelines and urge all municipalities to use them.
9. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Health should immediately establish a medical task force to examine, analyze, and document the health of those people reporting serious health problems which appear to be caused or triggered by UFFI. The study should include the long-term effects of exposure to UFFI.
10. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Consumer and Commercial Relations should amend the Ontario Building Code Regulation 925/75 to provide that a municipal building permit is required for the removal of UFFI insulation from all buildings. The amendment should provide for adequate inspecting and testing for formaldehyde gas after removal of the UFFI and prior to retrofitting. Further, guidelines for removal of the UFFI, inspecting and testing of the buildings and subsequent certification, should be prepared and forwarded to all municipalities.
14. *Mr. Swart*—Resolution—That, in the opinion of this House, the government should amend the *Retail Sales Tax Act* and regulations to eliminate the practice of repeated taxation of a single item by providing that retail sales tax will not be payable upon the resale of a used item.
15. *Mr. Riddell*—Resolution—That in the opinion of this House, and as a result of the failure of the Provincial Agricultural Code of Practice to protect farmers carrying on normal farming practices from harassment and restrictions, and as a result of the failure of the Food Land Guidelines to preserve agricultural land, the Government should introduce an Agricultural Development and Protection Act to serve as a Farmers' Bill of Rights, which would: (a) Conserve, protect and encourage the development and improvement of agricultural land for the production of food and other agricultural products including alternate energy production through the establishment of Agricultural Reserves; (b) Protect farmers from harassment and complaints from no-farm encroachment into farming areas; and (c) Establish an Agricultural Approvals Board to investigate complaints and make recommendations to the Minister of Agriculture and Food.
20. *Mr. Roy*—Resolution—That, as section 43 of the Constitution Act, 1982 provides that certain amendments under the Constitution of Canada that apply only to Ontario may be made by proclamation issued by the Governor General under the Great Seal of Canada as authorized by resolutions of the Senate, the House of Commons and the Legislative Assembly of Ontario, this House hereby authorizes that the Canadian Charter of Rights be amended by proclamation of the Governor General under the Great Seal of Canada in the manner set out as follows:

Titre

4. Titre abrégé des modifications contenues dans la présente annexe: *Loi modifiant la loi constitutionnelle (Ontario) de 1982.*

21. *Mr. Breithaupt*—Resolution—That, in the opinion of this House, upon the issuance of a Writ of Election, and until a new Government is sworn in by the Lieutenant Governor, no report, position paper, memorandum or any other document paid for from public funds or prepared by any person paid from public funds may be removed from government files, disposed of or destroyed.
29. *Mr. McNeil*—Resolution—That, in view of the success to date of agricultural trade missions in promoting the sale of our farm produce, this House strongly supports and encourages the initiatives of the Ontario Ministry of Agriculture and Food for the expansion of export trade.
30. *Mr. Shymko*—Resolution—That, in the opinion of this House television coverage by accredited members of the Press Gallery and recognized national, local and cable television companies be permitted in the Chamber at all times during the sittings of the House.
31. *Mrs. Scrivener*—Resolution—That this House recommends that the Government of Ontario take steps to ensure that persons who are substantially exonerated of charges laid against them under the Criminal Code, whether upon a preliminary inquiry as was the case with Susan Nelles, or after a trial, be compensated for their legal expenses.
32. *Mr. Johnston* (Scarborough West)—Resolution—That, in the opinion of this House, the Government should take immediate steps to prohibit the use by employers of polygraph tests which are in any way related to terms of employment or applications for employment, including: (a) screening job applicants; (b) screening employees for promotion; (c) determining the honesty of employees or applicants; and (d) obtaining personal information from employees or applicants.
33. *Ms. Bryden*—Resolution—That in the light of the Nelles case and in light of the other reported cases where persons were incarcerated for long periods and

subsequently found not guilty or have had the charges against them withdrawn or proceedings stayed or a conviction set aside because of new evidence, this House urges the Government to develop a system of compensation for persons who suffer substantial financial losses through injustices arising from the workings of the judicial system; and further, that, the Government refer the question to the Ontario Law Reform Commission for study and development of a draft bill to be presented to the Legislature for the next session.

34. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government of Ontario should establish a program to provide compensation to individuals who have been charged with an offence under the laws of Canada or Ontario and who are subsequently discharged or found not guilty whether at a preliminary hearing, at trial or on appeal and who, as a result of the charge and related legal proceedings, have incurred substantial legal costs or suffered substantial loss of reputation or economic losses. The program should be administered by the Criminal Injuries Compensation Board or a similar Board. The administering Board should be given the discretion to decide whether any compensation should be awarded, having regard to all of the circumstances. And, that, this House also recommends that the Government of Ontario should request that the Government of Canada amend the laws of Canada to provide for contributions by the Government of Canada to any fund established for the purposes of the program and provide statutory authority under the *Criminal Code* (Canada) to permit a court at a preliminary hearing, at trial or on appeal, to recommend whether or not the case is an appropriate case for referral to the administering Board and the Government of Ontario should introduce similar amendments to the laws of Ontario.
35. *Mr. Di Santo*—Resolution—That, in the opinion of this House, the Government should amend the *Retail Sales Tax Act* so as to exempt purchasers from retail sales taxes on goods sold by manufacturers whose annual sales do not exceed \$50,000. This would correspond to similar provisions contained in the regulations made under the *Excise Tax Act* (Canada).
36. *Mr. Kells*—Resolution—That, this House, recognizing that airborne pollution and acidic precipitation are serious problems in Ontario, recommends that the Government of Ontario seek to increase public awareness of this subject in general and its effects by: (1) including the subject of acid rain in curriculum guidelines for Science and Environmental Science at the Intermediate and Senior levels; and (2) ensuring that resource materials, textbooks and other teaching aids suitable for this purpose are available to Ontario schools.
37. *Mr. Watson*—Resolution—That in view of the continuing importance of agricultural growth to Ontario, as well as the importance of new scientific and technical developments in the field of agriculture, this House advocates the creation of a Select Committee or a sub-committee of the Standing Committee on Resources Development to examine the levels of both private and public sector funding for agricultural research and development in the Province and to report back to this House or the Standing Committee as is appropriate.

38. *Mr. Runciman*—Resolution—That, this Assembly, while acknowledging the world leadership role of the Ontario compulsory arbitration system, is cognizant of the need for continuing review to maintain that role and thus supports the initiation of a study, by a committee of this Legislature, to include, but not be limited to, the following: (i) the concept of a permanent panel of arbitrators vested with guaranteed tenure; and (ii) the establishment of a set of guidelines for arbitrators which would require that arbitration awards be confined to evidence adduced at an arbitration hearing and that such evidence must include an assessment of the economic conditions of the regions that will be affected by their rulings.
